

TwitterWho: yet another people search for Twitter

Written by POPOEVER

Sunday, 27 April 2008 20:45

[TwitterWho](#) sends calls using the form on [Twitter's invitation page](#) , but it lets you enter multiple queries which giving your search query more efficiency. Unfortunately, the result somewhat disappointed me, I can't find myself (

[POPOEVER](#)

) while searching "POPO", and also I can't find

[isaac](#)

while searching "isaac"
